Da CHINTZ, one of the few real old skool German Bombers out since '84. This fool is regular visiting Amsterdam to bomb and to piece.

This one is from 1990. (photo by LASE and SHOT)

whole car, kopenhagen 1990.
"DIE RENE Q" wich refers to the Danish graffiti detective called RENE QVIST. This car is done by DINER(Finland), MANT, NON and ROEL.

It's a very rare photo cause the car ran only for about half an hour. Probably these shot are the only ones taken from this car.
